METHODOLOGY

Incidents come from the G.D.A. Sentinel event feed: reports collected from news outlets and open-source (OSINT) accounts, and entries added by Global Defence Agency. Each incident is placed at its reported location. Incidents at sea are grouped with the named sea area or the nearest coast. Severity is the Sentinel rating (low, medium, high). Confidence is the Sentinel score for how well the report is supported. All times are Pakistan Standard Time (UTC+5).
