EXECUTIVE INTELLIGENCE SUMMARY

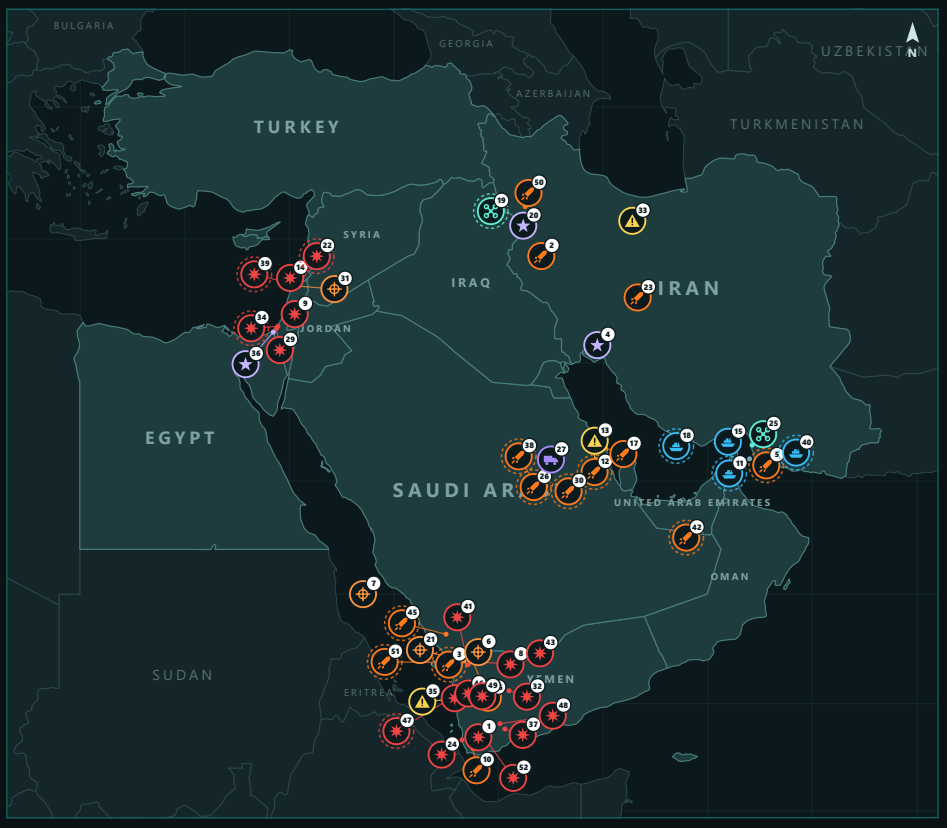
G.D.A. Sentinel recorded 52 incidents in Middle East during the reporting window (29 November 2026, PKT). Activity was led by Yemen (17), Saudi Arabia (9) and Iran (8). The most reported incident types were air strike (19), missile (15) and shelling (4). 17 incidents were rated high severity. Recorded incidents fell by 6 compared with the previous day (58). The Sentinel aircraft tracker detected 269 military and government aircraft, including 22 tankers, 5 special mission / ISR and 1 uav, with 250 take-offs and landings recorded. 1 emergency squawk was seen (KQA2361 7700).

Incidents recorded	High severity	Countries & sea areas
52	**17**	**9**
52 incidents plotted on the map	25 medium · 10 low	with recorded incidents

Source outlets	Leading incident type	Change vs previous day
63	**Air strike**	**−6**
independent outlets cited	19 incidents	58 in the previous day

OPERATIONAL PICTURE

Reported incident locations for this window. Numbers match the incident register; a dashed outer ring marks high severity.



MAP SYMBOLS

Air strike	19	Missile	15	Shelling	4
Ship attack	4	Military	3	Warning	3
Drone	3	Movement	1		

Lines join a marker to its exact position where markers were moved apart. Boundaries are shown for reference and are not an endorsement.

ACTIVE THEATRES

Active theatre

YEMEN

HIGH

Air strike reporting led activity in Yemen during the period. No high-severity incident was recorded.

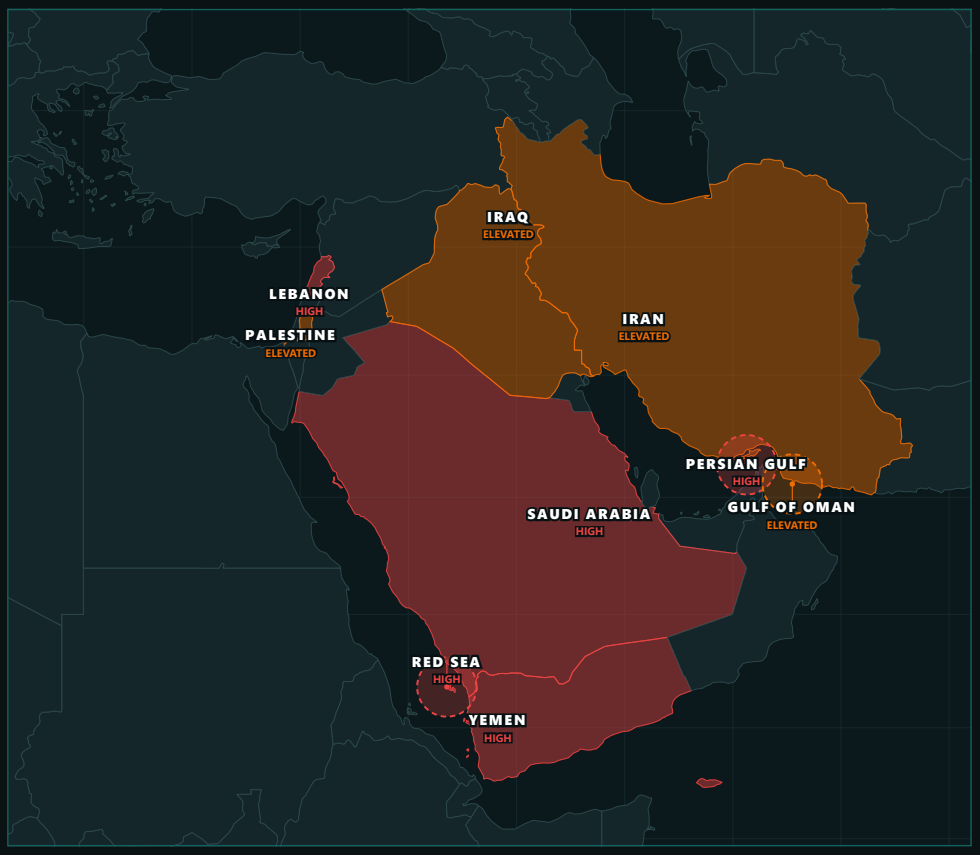
LEBANON

HIGH

Air strike reporting led activity in Lebanon during the period. 2 high-severity incidents were recorded.

4 INCIDENTS | 2 HIGH | 2 TYPES | 4 SOURCES

MAP OF ACTIVE THEATRES

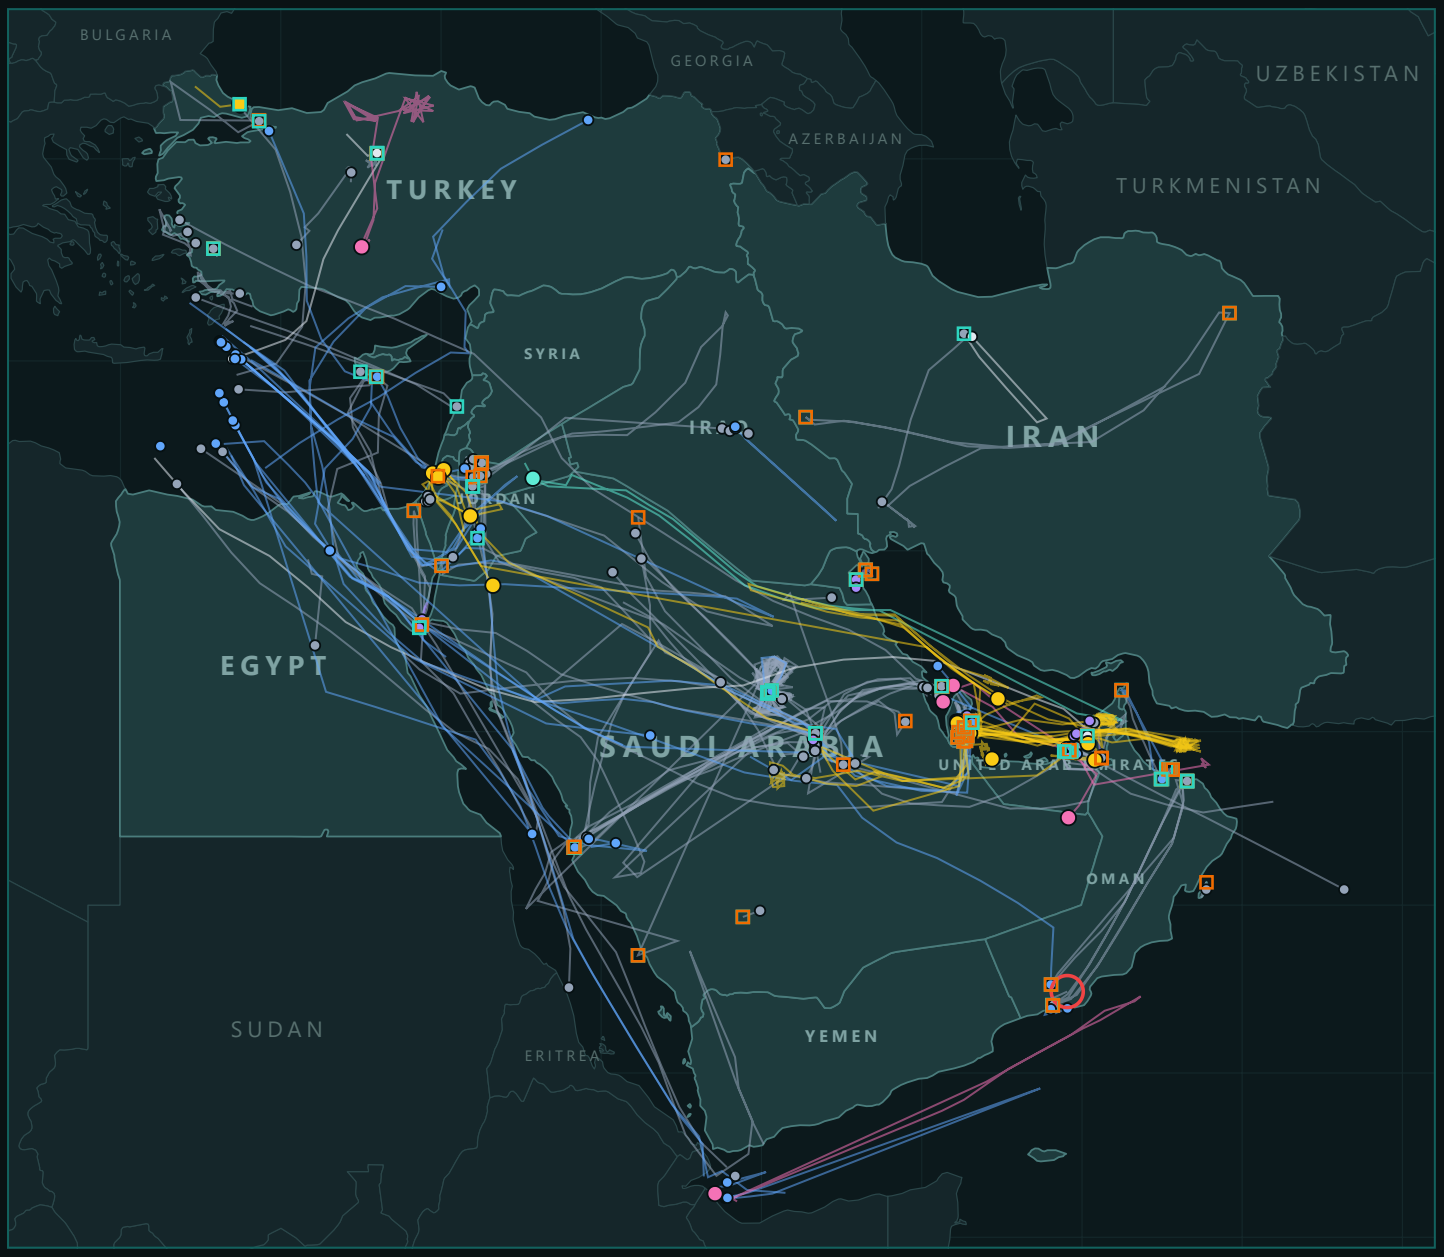


MILITARY AIR ACTIVITY

Military, government and watch-list aircraft detected over Middle East by the G.D.A. Sentinel tracker (OSINT report). Aircraft flying without public transponder data are not visible.

Aircraft logging began on 29 Nov 2026, 00:19 PKT. The part of this period before that has no aircraft data.

AIRCRAFT DETECTION MAP



Tankers (22) · Special mission / ISR (5) · UAVs (1) · Transport (45) · Helicopters (22) · Government / VIP (4) · Other military (170)
Emergency squawk · Take-off · Landing

Lines show each aircraft's logged track over the area; the dot marks its last logged position.

METHODOLOGY

Incidents come from the G.D.A. Sentinel event feed: reports collected from news outlets and open-source (OSINT) accounts, and entries added by Global Defence Agency. Each incident is placed at its reported location. Incidents at sea are grouped with the named sea area or the nearest coast. Severity is the Sentinel rating (low, medium, high). Confidence is the Sentinel score for how well the report is supported. All times are Pakistan Standard Time (UTC+5).

DISCLAIMER
